

# Communities of Practice (CoPs)

## What is a CoP?

A forum for individuals united by:

Passion

Project

Purpose

CoPs provide a supportive environment for teams to address unique challenges related to working in COVID-19 response by coming together to share ideas, experiences, and knowledge.

## Why host a CoP?

Build community and develop a supportive culture

Provide opportunities for educational updates on topics related to COVID-19

Motivate teams by highlighting their efforts and achievements

Refine skills through mentorship and coaching

# How CoPs Work

Gather your team for a routine virtual meet-up developed with them in mind! CoPs evolve to meet the needs, interests, and culture of your community and may include:

**Covid Metrics**

Local, national, and global epidemiological data trends

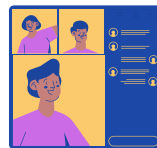

**Skills Development**

In-service training and skills building exercises such as addressing challenging situations through case conferences

**Guest Speakers**

Community leaders and invited speakers presenting on topics such as maintaining wellness and cultural humility

**Clinical Updates**

Latest information on COVID-19 transmission, prevention, and isolation/quarantine

**Community Conversations**

"Fireside chats" and other opportunities to get to know your team through virtual socializing

# Join our Growing Network of CoPs

- SAN FRANCISCO COUNTY
- CONTRA COSTA COUNTY
- IMPERIAL COUNTY
- STATE RE-DIRECTED EMPLOYEES
- AND MORE

## Getting Started is Easy

- 1 Designate a lead person on your team to discuss implementation
- 2 Identify specific audience(s) and assist in gathering data about the unique needs of your community
- 3 Let us guide you through the process and jump start your new CoP
- 4 We will help develop a transition plan that is sustainable and keeps you connected to our network of CoPs
